WIC BREASTFEEDING PEER SUPPORT

I am a mom of three, I have successfully breastfed two of my three children for a combined total of three years (and counting).

I love the bond that is created through breastfeeding.

For me, that was my motivation to keep going!

In my free time I enjoy painting and hiking, nature is a peaceful place for me and I love enjoying it with my kids.

"I am passionate about helping mothers attain their breastfeeding goals and providing loving support through their breastfeeding journey."
