WIC BREASTFEEDING PEER SUPPORT

I am a proud mother of 2 strong healthy boys!
I breastfed my oldest for 10 months and my youngest son is still
breastfeeding and showing no signs of stopping!

*I believe breastfeeding was the building block for the
loving relationship I have with my boys.*

In my free time I enjoy family activities like singing with my sisters,
traveling with my loved ones, crocheting, and cooking.

"I believe my upbeat, cheery, and
open-minded personality allowed
me to persevere challenges that we
all may face while breastfeeding.
Breastfeeding has been a fulfilling
and gratifying experience."
