

MEET YOUR PEER COUNSELOR!

MELANIE

Melanie has always loved working with both children and animals. She worked in childcare while attending college and took several child education courses and attended workshops. Melanie is a proud mother of 4 awesome children, aged 24 to 4 years old, whom were all breastfed. This knowledge and experience made her a perfect fit for the job.

When her children are not keeping her busy you will find her taking care of her 2 cats, Cashous & Sirrius, bird, Trissa, several fish and a crab. Melanie also loves getting outside for horseback riding, camping, hanging at the beach, gardening and hiking.

As a favorite healthy snack Melanie would say fruit and veggies because you can't find a better snack that doesn't hurt your teeth!!! For a sweet treat she would choose candy or chocolate.

Ask a WIC staff member for a referral to Melanie if you think you be interested in connecting with her!
